ABOUT THIS WORK

Convention & Celebrity Coverage

Contracted event photographer — GalaxyCon Columbus 2025 and Fan Expo Cleveland 2024. Named, verifiable celebrities. Backstage access, panel coverage, and convention floor. This is credentialed event work, not floor-pass coverage — built to be useful to organizers, sponsors, and PR teams the morning after, not just to prove the celebrity was there.

NAMED COVERAGE

- Eman Esfandi — Obi-Wan Kenobi (Obi-Wan Kenobi series), Elvis, King Richard
- Tyler Hoechlin — Superman / Clark Kent (Superman & Lois, Teen Wolf)
- Tommy Chong — Cheech & Chong, That 70's Show (credits banner visible in image)
- Rosario Dawson — GalaxyCon Columbus panel context

COVERAGE STRENGTHS

- Talent panels, stage moments, audience scale, and fan-facing environments
- Convention coverage that balances celebrity access with the full event atmosphere
- Images suited for recap galleries, press, social, sponsor reports, and future promotion
- Clean documentation of guests, signage, stage production, and room energy
- Flexible coverage for conventions, entertainment events, premieres, and fan activations

Convention and entertainment coverage with emphasis on access, recognizable talent moments, crowd energy, and usable recap imagery.
