ABOUT THIS WORK

Live Music & Event Coverage

Live music and event coverage across intimate band sets, DJ-led nights, branded venue moments, and public-performance environments – from Josh Johnson Band stage work to Dirty Matriarch event coverage and NYC crowd-driven performance. The common thread is quick reads in low light, real audience response, and frames artists, venues, and promoters can actually use after the night is over.

COVERAGE STRENGTHS

- Live band, DJ, and crowd coverage that keeps the room readable and the energy intact
- Performance frames artists can use for recaps, posters, socials, and future promotion
- Public-event and street-performance coverage with real audience context
- Low-light event photography that preserves atmosphere without flattening color
- Useful coverage for bands, venues, promoters, nightlife, and event producers

Built for artists, DJs, venue teams, promoters, and event hosts who need the talent, the crowd, and the room covered in one pass.

READY TO WORK TOGETHER

Let's capture what
the room felt like
at its peak.
